BULLETIN

Mississippi Normal College

SUMMER TERM, 1914

JUNE 1 TO JULY 10

HATTIESBURG, MISSISSIPPI

JANUARY, 1914

Published Quarterly by the Mississippi Normal College, Hattiesburg, Miss.
Entered as second class mail matter, August 20, 1913, at the
Postoffice at Hattiesburg, Mississippi, under
Act of Congress of July 16, 1894.

SUMMER TERM

MISSISSIPPI NORMAL COLLEGE

Hattiesburg, Miss.

Joe Cook, President.

J. N. Powers, State Superintendent Education.

Mathematics: T. P. Scott, F. B. Woodley, B. G. Hull.
 English: J. N. McMillin, Miss Anne H. Augustus, Miss Alma Hickman.
 Civics: W. I. Thames,
 History and Latin: W. F. Bond, Miss Kate Brown, W. H. Anderson.
 Science: R. J. Slay.
 Agriculture: T. F. Jackson, G. H. Armstrong.
 Physiology and Hygiene: Dr. May F. Jones, B. T. Schumpert.
 Education: O. G. Brim, Miss Emily Jones, J. E. Brown.
 Practice and Observation School: Miss Mary Stokes.
 Geography: Miss Willa Bolton, R. P. Linfield.
 Domestic Science: Miss Maggie De Campbell,
 Manual Training and Drawing: Miss Delora Hanel, Miss Bessie Murphy.
 School Music: Miss Lorena Tomson.
 Penmanship: (Instructor to be selected.)
 Piano: Miss Lorena Thames.

OTHER OFFICERS.

Secretary: A. V. Hays.
 Assistant Secretary: Mrs. W. T. Hudson.
 President's Secretary: Miss F. H. Leech.
 Stewardess: Mrs. J. W. Chambers.
 Matron Forrest County Hall: Mrs. Anna H. Mills.
 Matron Hattiesburg Hall: Mrs. Annie B. Cook.
 Matron Industrial Cottage: Mrs. Neva Wall.
 Librarian: Mrs. Pearl Travis.

SPECIAL LECTURERS.

Arrangements will be made for a limited number of interesting addresses at the chapel hour during the summer term.

ANNOUNCEMENT

The first Summer Term of the Mississippi Normal College was held June 9 to July 18, 1913. The enrollment for the term was 638. Of this number 398 took regular credit work. The others were here to prepare for the State Examination, which was held at the close of the term.

Arrangements have been made to secure the use of the buildings of the Mississippi Woman's College for the Summer Term of 1914. This will enable the Normal College to accommodate about two hundred more students than it enrolled last summer.

The work is planned to suit the needs of teachers who desire to do definite work that will be credited on their certificate or diploma courses, also for those who wish to prepare for the state and county examinations by taking six weeks' review of some of the common school subjects.

It is assumed that those who come for this work are in earnest, and no provision has been made for those who are merely seeking recreation or the reputation of having attended a summer normal.

We hope to fill our dormitories with those taking what we term "credit work," rather than with those who are simply preparing to take the State examination. But even if some review work is chosen we urge that each student take at least one or two of the regular Normal College classes.

The College will do everything possible to assist those teachers who aspire to take either the Certificate or the Professional Diploma. Many teachers feel compelled to teach during the winter and for the convenience of these we have arranged our work so they can take a part of it each summer and thus eventually complete one or both of our courses without losing any time from their school rooms.

Should such teachers wish to enter at the beginning of the 6th term (April 20th), classes will be organized to suit their needs as far as practicable. (See sixth term schedule for classes already arranged for).

Those who decide to take advantage of this opportunity to do definite work on one of our courses should study the matter carefully and decide before reaching the College just what subjects they should take up first. Those who have done regular high school or college work in such subjects as English, Algebra, Geometry, History, Science, etc., will be given credit for same on entrance provided they pass a satisfactory examination covering the work done, or else submit an acceptable certificate from a standard high school or college. By "standard" high school is meant one now on the affiliated list of the other state colleges. Other high schools will be added to the Normal College affiliated list on satisfactory proof that their work is thorough.

All who expect to ask for credits on work done elsewhere should write for the entrance credit blank and fill out same before coming to

the college. This will avoid much delay.

The instructors will be in their rooms at the regular schedule periods during the entire day Monday, June 1, and it is hoped that all students will get their work fully arranged before the close of the day. If teachers will study this bulletin carefully before reaching the college there will be no need of the "lost motion" usually incident to the opening of summer normals.

Courses of Study

(Regular College Work.)

In accordance with the law, the Board of Trustees, on the recommendation of the President and Faculty, has arranged the following courses of study:

1. A Certificate course—two years.
2. A Professional Course—four years.

Certificate Course

This is a two-year course embracing the subjects named in the outline below, and is intended as a preparation for teaching in the rural schools of the State. In addition to such subjects as English, Mathematics, etc., found in all courses of study, special emphasis is placed on Agriculture, Hygiene, Drawing, Manual Training, Domestic Science, School Music, etc.

In all classes of the college the idea of the correlation of the work of the school with the community life is emphasized. It is the theory of this college that the rural school should be the center of the community in all matters—moral, social and industrial. The teacher should be prepared to act as leader in all movements for the betterment of community life.

OUTLINE OF CERTIFICATE COURSE.

An "hour" of work is the equivalent of five recitations per week for one term (six weeks).

The total number of hours required for a certificate is 46.

A student will not be allowed to take more than twenty-two nor less than fifteen recitations per week. (But circumstances may justify an exception to this rule, by special Faculty permission).

It requires two laboratory periods to constitute a recitation in counting up work and credits. The work in Drawing, Manual Training, Domestic Science, and some work in other science is laboratory work.

An actual attendance of not less than two terms is required for the Certificate Course.

The following subjects, with the number of hours indicated for each, are required for the Certificate Course:

English, 10 hours.	Geography, 2 hours.
Mathematics, 6 hours.	Drawing, 2 hours.
Education, 4 hours.	Manual Training, 2 hours.
History, 4 hours.	Or Domestic Science, 2 hours.
Agriculture, 3 hours.	School Music, 2 hours.
Hygiene, 2 hours.	Total prescribed work, 42 hours.
Science, 3 hours.	Optional studies, 4 hours.
Civics or Economics, 2 hours.	

This optional work may be taken as additional work in any of above subjects, or it may be taken in Latin, Modern Languages, Piano, or any other subjects that may be added to the curriculum.

Professional Course

This is at present a four-year course. Beginning with the session of 1914-1915 it will be a five-year course, as it is the purpose of the college to raise the standard as rapidly as conditions will permit.

The course embraces the subjects named in the outline below and it will be noted that all the work required for the Certificate Course is included in the Professional Course also. In other words, one who has completed the Certificate Course will be required to do only two more years of work to complete the professional course. The work of these additional years is intended to broaden the scholarship of the student in all the subjects taught, but special emphasis is placed on the work of the Department of Education.

OUTLINE OF PROFESSIONAL COURSE.

For definition of "hour" see above.

The total number of hours required for a diploma is 96.

The conditions as to maximum and minimum hours per week, etc., apply to both Certificate and Professional Courses.

An actual attendance of not less than six terms is required for a diploma.

Following are the subjects, with the number of hours indicated for each, required for the Professional Course:

English, 20 hours.	Hygiene, 4 hours.
Mathematics, 13 hours.	Civics or Economics, 4 hours.
Education, 12 hours.	Geography, 4 hours.
History, 9 hours.	Drawing, 3 hours.
Agriculture, 6 hours.	School Music, 2 hours.
Science, 6 hours.	Total prescribed work, 88 hours.
Manual Training, 5 hours.	Optional studies, 8 hours.
Or Domestic Science, 5 hours.	

This optional work may be taken as additional work in any of above subjects, or it may be taken in Latin, Modern Languages, Piano, or any other subjects that may be added to the curriculum.

Courses in Detail

The work offered for above requirements is outlined by departments in the regular Normal College catalogue. It includes fifteen courses (2 terms each) in English; 9 in Education; 10 in Agriculture; 6 in Science; 3 in Civics and Economics; 2 in Physiology and Hygiene; 7 in Geography; 5 in Manual Training; 4 in Domestic Science; 3 in Drawing; 4 in School Music; 4 in Latin; 2 in French.

Of these courses, the following will be offered during the summer term.

Figures indicate numbers of courses; exponent, or superordinate, indicates term of the course. E. G., "English 5¹" means the first term of course 5 in English. See current catalogue for full description of courses, text-books, etc.

English.

- 1¹. Narration, with daily and weekly theme writing.
- 2¹. Description. (Continuation of course 1.)
- 3¹. Exposition. (Continuation of course 2.)
- 4². Exposition and Argumentation. For those who have had one session in Composition.
- 5¹. The English Sentence. For those who are to teach grammar in the grades or in high schools.
- 6¹. Reading. Daily practice, with study of phonics, etc.
- 8². Southern Literature.
- 9¹. One or More Plays of Shakespeare.
- 10¹. Present-Day Literature. Short stories, magazine fiction, etc.
- 15¹. Teaching of English in the common schools.

Mathematics.

- 1¹. Methods in Arithmetic.
- 3². Elementary Algebra. For beginners.
- 3¹. Algebra. For those who have finished 3².
- 4². Plane Geometry. For those who have had one term of geometry.

History.

- 1¹. Ancient History. For beginners.
- 5¹. Methods in History. For those who are teaching history in the grammar grades.
- 6¹. Research Work in Mississippi History. Not for those preparing for State Examination.

Education.

- 1¹. Principles of Teaching—Colgrove.
- 1². Principles of Teaching (completed).
2. How to Study, and Lesson Plans—Earhart.
3. Curriculum. Working out schedules, programs, etc.
- 10¹. Psychology.
- 11¹. Child Study.
16. Supervision. For principals of high schools and County Superintendents.
- “S” A Class in methods and management. For those who do not wish regular credit work. No credit is allowed for this work.

Agriculture.

1. Study of Plant Life.
2. Elementary Agriculture. A review and extension of common school agriculture.
3. Further study of plant growth, soils, fertilizers, and farm crops.
5. Animal Husbandry. A study of types, breeds, and of judging, scoring, and comparing of farm animals.
6. Farm Management. Selection of land, capital required, keeping of farm accounts.

Science.

- 1¹. Botany. The first term of a 3-term course.
- 3¹. General Science. The first term of a 3-term course. An introduction to chemistry and physics.
- 4¹. Electricity.
7. Practical Household Chemistry. (Laboratory work Saturday morning, 8 to 10).

Civics and Economics.

- 1¹. Civics. The first half of a 2-term course.
- 2¹. Political Science. The first half of a 2-term course.
- 3¹. Economics. The first half of a 2-term course.

Physiology and Hygiene.

- 1¹. An advanced study of physiology. The first half of a 2-term course.
- 1². Hygiene and Home Nursing. The first half of a 2-term course.

Geography.

- 1². Elementary Geography. The second half of a 2-term course.
- 3¹. Commercial Geography. The first half of a 2-term course.
7. Methods in Geography. For those students who are to teach in the lower grammar grades.

Manual Training.

1. Elementary construction work. Paper folding and cutting, card board construction, rug-weaving, etc. Two periods per day.
2. Basketry, etc. Work in raphia, reed braiding, weaving, etc.
4. Bench and Tool Work. Specially adapted to those who wish to introduce shop work in rural consolidated schools. Two periods per day.

Domestic Science.

1. School Sewing (hand). One period per day.
- 2¹. Theory and Practice of Cookery. Two periods each day.
- 2². Theory and Practice of Cookery. Second half of a 2-term course. Two periods each day.
- 3¹. Theory and Practice of Cookery. For those who have finished course 2. Two periods each day.

Drawing.

1. Freehand Perspective. A course for beginners. Two periods each day. One credit.
 2. Color Harmony. For those who have finished course 1. Two periods each day. One credit.
- Special. A popular course in drawing for primary teachers. One period each day. No credit is allowed for this work.

School Music.

- 1¹⁻³. A course in sight singing, for beginners. The first half of course 1. One period each day. One credit.
- 1³⁻⁵. The second half of course 1. One period each day. One credit.
4. Chorus Class. Practice in chorus singing. One period each day. $\frac{1}{2}$ credit.

Latin.

- 1². A beginners course for students who have finished the first term of course 1 or have had one or two months' training in Latin.
- 1⁶. A course for those who have had a year of Latin but wish to review the latter part of first year Latin.
- 2¹. Caesar. For those who have finished first year Latin.

Review Classes

PREPARING FOR THE STATE EXAMINATION, JULY 9, 10.

A six weeks' review in the common school branches.

Each class will recite five times per week.

A student will not be permitted to take more than six of these classes. Each one is urged to take not more than five.

Each teacher should decide before reaching the College just which branches will be taken. This will save confusion and loss of time.

Students may take part review work and part credit work if they so desire. In such case they may take one credit and four review, two credit and three review, three credit and two review or four credit and one review.

In the Recitation Schedule below the numbered classes are credit classes. All others are considered review classes.

In all review classes the state-adopted text books will be used, but these will be supplemented by outlines, etc.

The common school branches are: English, grammar and composition, arithmetic (practical and mental), United States history, Mississippi history, geography, physiology and hygiene, civics, agriculture, reading and spelling.

Points Worth Noticing

Healthful Location.

Situated in the very heart of the long-leaf pine section of the state, on a rolling elevation more than forty feet higher than the business section of Hattiesburg, with no streams of water in the vicinity, with pure water from the artesian wells of the Hattiesburg city water works, with its own sanitary sewerage system, with the dining hall and all dormitories protected with mosquito-proof screens of copper wire, there is absolutely no reason why the college cannot be kept free from disease, so far as local causes are concerned.

Moral Influences.

Hattiesburg is a community of marked religious tendencies and moral atmosphere. There are in the city more than a dozen prosperous churches with flourishing Sabbath schools whose doors are wide open, with a cordial invitation to all Normal College students to take part in the worship. There are also Y. M. C. A. and Y. W. C. A. organizations, and other Bible study and prayer meetings in the college. It is the custom to have a sermon in the college chapel each Sunday evening.

Street Car Service.

While the college was wisely located at a distance of more than two miles from the business center of the city, thus insuring quiet and freedom from all disturbing influences, there is a convenient street car service from 6 a. m. to 11 p. m. that enables one to go into the city, when necessary, at an expense of only 10 cents for the round trip.

Library and Reading Room.

Books and periodicals to the value of \$2,500 have recently been placed in the college library, and these will be at the service of the summer term students.

Practice School.

It is planned to have the Normal College observation and practice school continue through the summer term, and this will afford an opportunity for the students in the pedagogy and methods departments to observe the practical application of the principles they are studying.

Visitors.

Friends of the cause who are passing through the city and wish to drop in for a day to see the work of the college will be cordially welcomed. All such should register in the visitors' record in the President's office. They may obtain meals at the dining hall at 25 cents. Those who remain longer than three days will be expected to pay the incidental fee and register as students. The people of Hattiesburg and vicinity will be welcomed to all general lectures at 11 a. m. and all free evening lectures. Should they wish to visit class-room lectures, they should arrange for this at the President's office.

Deadbeats.

Teachers, as a class, are noted for good moral character and a high sense of honor. The Mississippi Normal College takes high ground in this matter and wishes it to be known that it will not welcome or tolerate students who would cheat on examination or attempt to avoid payment of board bill or incidental fee.

Study Hours.

There will be regular study hours observed in the dormitories, and during these hours every student will be expected to be in his own room. Persistent neglect of, or refusal to observe, this regulation will result in a forfeiture of the privilege of rooming in the dormitories.

EXPENSES.

Incidental Fee.

All students will pay the usual summer normal fee of three dollars (\$3) on entrance. No reduction will be made for late comers.

Tuition.

No tuition fee will be charged either for credit work or for review classes, provided the student is a teacher or is preparing to teach.

Books, Etc.

There is a book store in the college building, where books may be purchased. Students taking the review work should bring with them such of the state-adopted text books as they have.

Medical Attention.

During the summer term, no free medical attention or medicine will be furnished. The college physician, resident on the campus, will attend and furnish medicine for a small charge, but if it is desired, physicians may be summoned from the city.

Board.

Dormitory students who intend to remain four weeks or longer will deposit \$12 on entrance and be given board at cost on the co-operative basis. Those remaining less than four weeks will pay \$4 per week or 25 cents per meal in advance. Meal tickets may be purchased at the secretary's office. The cost of board on the co-operative plan will not exceed \$10 per month.

(The average cost of board per student for the present session has been less than \$9 per month.)

Students rooming in the city may obtain their meals in the dining hall on same basis as those who room in dormitories, either by the four weeks, by the week, or by the meal.

(Note that no room will be reserved without the advance payment of the Incidental Fee of Three Dollars.)

Laundry.

The steam laundry in Hattiesburg will charge 50 cents per week per student and deliver twice each week. Those who prefer to do so may have their work done by local negro laundresses at a lower weekly rate.

Articles to be Furnished by Students.

Each dormitory student should bring from home: 2 pairs sheets (for single bed), pillow, pillow-cases, bed-spread, towels, sash curtains, toilet soap, etc.

Room Reservation.

By use of three single beds in each room, the dormitories will provide comfortable accommodations for about 400 students. The dormitories at the Woman's College will accommodate 200 more, thus making a total of 600. As there will doubtless be more than this who will wish to come, it will be necessary to assign the rooms in the order in which applications are received. Every application for a room must be accompanied by the incidental fee of Three Dollars. Under no circumstances will a room be reserved without this advance deposit. The payment of this fee will entitle a student to take four credit classes, or six review classes, and to attend all the lectures at the general assembly hour, also evening lectures, except in case of Lyceum Entertainments calling for special admission fee. No reduction in incidental fee will be made for late comers.

Mail, Express, Etc.

Students should have their mail addressed in care of the College, in which case it will be delivered to them through the post-office at the college.

A long distance telephone in the Secretary's office insures quick telephone or telegraph communication in case of necessity.

Express packages should be addressed "Care Normal College." These will be delivered at a nominal cost.

How to Reach the College.

On reaching Hattiesburg, take the Normal College street car at the intersection of Pine and Main streets, one block from G. & S. I. station, about five blocks from N. O. & N. E. station. Do not leave this car until it reaches the end of the line at the college grounds.

Keep your trunk check until you reach the college, then turn it over to the dormitory matron. The trunk will be sent for at a nominal expense to you—much less than if you get a drayman yourself.

Do not take a cab or hack to come to the college, as this is a needless expense.

If in doubt, call the college by Cumberland 'phone (either 690 or 968. If at night, call 363.)

Students who have been assigned to Woman's College instead of Normal College will take cars marked Bay Street, going south on Main.

The Woman's College telephone is 567.

Baggage.

The college has arranged to haul the students' trunks from the station to the college at a much lower rate than would be charged by local drays. It is important, therefore, that students hold their trunk checks till they reach the college, then turn them over to the college secretary, or the dormitory matron.

A trunk tag, showing location and number of room to which trunk is to be delivered, will be mailed to each student who registers in advance. This should be attached to the trunk before it leaves its starting point, and will save much confusion and delay at this end of the line.

Railroad Rates.

Application has been made for the usual reduced rates on all the railroads of the state. Notify your agent in advance what day you will expect to purchase a ticket to Hattiesburg. If you fail to get a rate, be sure to secure a certificate receipt to effect that you have paid for a full-fare ticket to Hattiesburg. With this, it may be that the reduction can be secured returning.

For the summer term the rate will probably be one and one-third fare plus 25 cents for the round trip. These rates in force May 30, 31, June, 1, 8, 15, 22, 29 and July 6.

Explanations.

College credit subjects are indicated by figures; review subjects by letters. Large figures indicate catalogue numbers of the courses; small figures, superordinates, indicate the term in the course. For example, 2¹ indicates first term of course No. 2.

Small letters, a, b, c, d, indicate sections of classes.

M signifies Mississippi History.

U signifies United States History.

S signifies special courses in Education and Drawing.

A student in selecting the review work should keep the same small letter section in all subjects to avoid conflicts.
